

REMARKS

The notice indicated that the Amendment filed July 2, 2007, was non-complaint because of alleged non-conformance of the amendments to the specification. Namely, the notice stated that "Amended paragraphs do not include markings."

Applicant submits herewith a Corrected Amendment which submits a substitute specification in a clean-version and a marked-up copy. Applicant respectfully submits that all markings appear in the marked-up copy.

Reconsideration and acceptance of the Corrected Amendment are earnestly solicited.

Respectfully submitted,
